What do two short horn blasts from another vessel mean in a meeting situation? The Cunningham changes the location of draft in the mainsail. Air moves from \_\_\_\_\_ to \_\_\_\_\_. 6. D. The Canada PCOC is accepted as proof of competency in Manitoba and all other provinces. The nonprofit arm of BoatUS provides educational outreach to boaters and anglers with the purpose of reducing accidents and fatalities, increasing stewardship of America's waterways, and keeping boating safe for all. 1. With Boat Ed, you can complete an online boating safety course at your own pace and on any device—a smartphone, tablet, laptop, or desktop computer. 5. B. Channel 13 F. 7. If you go boating in the United States, the PCOC is recognized by the United States Coast Guard and the U.S. National Association of State Boating Law Administrators (NASBLA) as meeting their education standards. Lake Manitoba offers boaters views of limestone cliffs and caves with bats as well as the possibility of seeing Manigogo. Which of the following displays how passengers should be safely seated on board a small aluminum boat? Add to that the numerous rivers and streams located in the province and it's easy to see why Manitoba is a good place to get out on the water, especially during the summer. Take your time, login in to your personalized course dashboard and pick up where you left off. Variation depends upon the vessel's location; Deviation depends upon the vessel's heading. Variation is caused by the misalignment of the magnetic lines of force with the meridians of longitude, whereas deviation is caused by the effects of the magnetic properties of the vessel. "Even seasoned boaters can spend the off season brushing up on their knowledge of safe boat operation." As an incentive, the Foundation is offering 25% off all its specialized courses purchased through March 31, 2020, using the code SPRING25 (BoatUS.org/Courses). a. Vibration b. Food c. Spray d. Temperature (From "Basic Boating Course") 10. A boat is approaching you head-on, what is your course of action? And it only takes a few hours of your time to complete the requirements to get your card. Since educated boaters are safer boaters, make sure you learn about responsible boat operation, etiquette, and the rules of the water before you go boating. In which of the following images are you the Stand-On Craft? When power-driven vessels are in sight of one another and meeting or crossing at a distance within half a mile of each other, each vessel must use sound signals. In Canada, anyone who operates a pleasure craft must carry proof of competency on board if the pleasure craft has any type of motor and is used for recreational purposes. Also of value is that the vapor, which forms in the top of the tank, is drawn off as a gas, which is easier to ignite than a liquid like gasoline. The most common proof of competency is a PCOC that a boater receives after passing a Transport Canada-approved boating safety course. 5. AIS uses the VHF frequencies 161.975 MHz and 162.025 MHz to broadcast and receive the AIS information. You can get your PCOC by taking the Transport Canada-approved boating safety course from Boat Ed. The Boat Canada boating safety course from Boat Ed was developed specifically for Transport Canada to meet the competency requirements for the PCOC. Which boating restriction sign indicates that no power-driven vessels are permitted? A. Which of the following images correctly identifies the Port side of a pleasure craft? Navigation safety; ship-to-ship, locks, bridges 4. False. The uneven heating of the earth's surface by the sun creates different pressure areas that cause air to move — the wind to blow. 1. Start it on your mobile, progress through modules on your tablet and finish it on your desktop. Located in Whiteshell Provincial Park, West Hawk Lake was formed by a meteor impact and is popular for a variety of activities, including boating, sailing, water skiing, and scuba diving. Whether you choose to boat on one of these lakes or another waterway in Manitoba, you need to be prepared for a variety of situations you could find yourself in while on the water. True. 10. Designed by online learning professionals, subject matter experts and real boaters, our course is built for all ages and abilities, including 8 yrs old and up. True or false: One desirable feature of LPG is that it liquefies at a relatively low pressure, allowing low-cost tanks to contain a large amount of energy because liquid is much denser than gas. Study at your own pace and we'll automatically track your progress. What you really need is a Canada PCOC. The nautical mile represents a distance that is about 15% greater than the statute mile. Among students incorrectly answering, it's about evenly split between A and C. While the courses are designed to educate, Pérez notes certain questions seem to consistently get the better of test-takers. True False (From "Propane Systems on your Boat") 3. Which of the following is a Type A Parachute Flare? This card is proof that you have successfully completed an approved boating safety course that is required for pleasure craft operators in Manitoba and other provinces. "Statistics show that taking a boating education course will make you a better — and safer — boater," she explains. People often choose temperature, thinking it means "heat." They will argue with us endlessly, though the course specifically mentions boater fatigue in relationship to engine noise and vibration. By taking your boating course on boat-ed.com, you can be sure that when you complete the course and pass the Transport Canada Boating Safety Test, you will have the Canada PCOC that you need to operate a pleasure craft legally in Manitoba and all other provinces. How do I get a PCOC? c. Variation depends upon the vessel's location; deviation depends upon the vessel's heading. This difference is significant, particularly when navigating close to shore in conditions of reduced visibility, such as fog. "Our students often start with the basic course and get excited to learn more," says Amanda Suttles Pérez, the Foundation's Director of Education. Who needs a PCOC? The difference between compass variation and deviation is: a. Variation is caused by the effects of the magnetic properties of the vessel, where deviation is caused by the misalignment of the magnetic lines of force with the meridians of longitude. Which of the following should you keep on your port side when heading upstream? True False (From "How To Use GPS") 7. Primary hailing channel; emergency, distress 6. True or false: It makes little difference whether statute miles or nautical miles are selected during setup of the GPS, because they are very similar. True or false: AIS uses VHF radio frequencies to broadcast the AIS information. Channel 9 C.
